RohithChaduvala

Hyderabad, India

Career Objective

Aspiring AI Engineer with strong foundations in Python, SQL, and machine learning, with hands-on work in LLMs, prompt engineering, and multi-agent systems. Passionate about building Retrieval-Augmented Generation (RAG) pipelines and AI-native tools to solve real-world data and automation challenges. Excited to contribute to Atlan's mission by developing scalable AI systems that boost collaboration, productivity, and decision-making.

Education

B.Tech, Computer Science – Anurag University *2022–Present*
CGPA: 8.40 / 10

Intermediate – Kakatiya Junior College *2020–2022*
Score: 962 / 1000

SSC – Krishnaveni Talent School *2020*
GPA: 10 / 10

Skills

- **Languages:** Python, Java, C, SQL, Linux
- **AI/ML:** Machine Learning, Scikit-learn, pandas, NumPy, matplotlib, seaborn
- **GenAI/LLMs:** Prompt Engineering, RAG Pipelines, Multi-Agent Systems, LangChain, AutoGen, OpenAI API
- **Cloud/Data:** Azure, Fabric, Databricks, Snowflake, ADF, Spark
- **Web/Visualization:** HTML, CSS, JavaScript, React, Streamlit, Power BI
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook

Projects

AutoGen DSA Code Generator (GenAI Multi-Agent System)
Tools: Python, AutoGen, LangChain, Streamlit
Built a GenAI multi-agent framework to generate, debug, and validate DSA solutions. Used prompt engineering with automated reasoning loops, visualized in Streamlit. Reduced code errors by 90% via agent collaboration.

Weather Data Pipeline
Tools: Databricks, Azure Functions, Microsoft Fabric
Created a real-time pipeline to fetch, transform, and visualize weather data. Enabled reliable streaming analytics and real-time dashboards.

Snowflake Mini Projects
Tools: Snowpipe, Azure Blob, SQL, Snowpark
Automated data ingestion with Snowpipe and built analytics-ready data models using SQL and Snowpark.

Certifications & Achievements

- **Udemy:** Data Scientist and Engineering (May 2025)
- **Databricks:** Lakehouse Fundamentals (Apr 2025)
- **Microsoft:** AZ-900 Certified (Sep 2024)
- **Accenture:** Analytics Simulation (Apr 2025)
- NSP Scholar – National scholarship for academic excellence
- NSS Volunteer – Contributed to social impact events

Personal Details

Languages: English, Telugu, Hindi
Interests: Chess, News, E-Games, Tech Blogs
Strengths: Attention to Detail, Time Management, Team Collaboration, Fast Learner, Problem Solving, Adaptability
